Processor: Pentium

Operating System: All versions of Windows, starting from Windows XP up to Windows 10 are supported

Microsoft Outlook: One of these versions of MS Outlook must be installed in your PC 2016, 2013, 2010, 2007, 2003, 2002, or 2000

RAM: 1 GB or more

Hard Disk: Minimum 100 MB of Free Space

How to install DataInfoTools OST Recovery Software?

Installing DataInfoTools's OST Recovery software is just a few steps process.

Perform the below steps in the below given sequence to successfully install the software without any trouble:

1. Download the OST Recovery software from our website.
2. When you download the software, by default, an exe file will be saved in your PC's download folder. However, you can also select your desired location to save the exe file.
3. Once the exe file has been downloaded, double-click it. A pop-up will appear.
4. Now read the information of the pop-up, and follow the instructions.
5. If you are asked to accept the **Terms and Conditions** and/or **License Agreement**, then allow the same without any hassle.
6. Follow all the instructions until you see the **Finish** button.
7. When you see the **Finish** button, click it. The DataInfoTools OST PST Recovery software will be launched.

Note:

After the installation is complete, you can also start the software from the Desktop shortcut, or from the Windows Start > All Programs menu.

How to Uninstall DataInfoTools OST Recovery Software?

Uninstalling DataInfoTools's OST Recovery software can be done in just a few steps process.

Perform the below steps in the below given sequence to successfully uninstall the software without any hassle:

1. Go to **Control Panel** from **Windows Start** menu.
2. Look for the **Add or Remove Programs** icon and double-click it. You will see a list of the programs installed on your PC.
3. Select **DataInfoTools OST Recovery Tool** and select the **Remove** option.
4. Upon clicking the **Remove** option, you will see a pop-up with a warning message. To continue the uninstallation process, click the **Yes** button.
5. The uninstallation process will be completed in a few moments.
6. Now, click the **OK** button to close the pop-up.

The **DataInfoTools OST Recovery** software has been successfully uninstalled from your PC.

Note

You can also uninstall **DataInfoTools OST Recovery Tool** from the Windows **Start > All Programs** menu as we have given an uninstall option there as well.

To uninstall using Windows **Start > All Programs** menu, perform the below steps:

1. Go to Windows Start > All Programs menu.
2. Look for **DataInfoTools OST Recovery** and click it.
3. You will see **Uninstall DataInfoTools OST Recovery** option. Select this option.
4. You will see a pop-up with a warning message. To continue the uninstallation process, click the **Yes** button.
5. The uninstallation process will be completed in a few moments.
6. Now, click the **OK** button to close the pop-up.

The **DataInfoTools OST Recovery** software has been successfully uninstalled from your PC.
